

SharePoint Registration and Enrolment Module (REM) - NOW RELEASED!

ELEARNINGFORCE is delighted to announce the release of the **SharePoint Registration and Enrolment Module for SharePoint LMS**

Make it easy to control course enrolments in your SharePoint LMS

SharePoint REM offers advanced features for the administration of access to courses in SharePoint LMS. The tool can enhance both corporate organisations and educational institutions' ability, to administer learner enrolments to their SharePoint LMS courses.

SharePoint REM includes:

- User registrations and enrolments including manual or automatic approval
- Waiting list for filled seats courses
- Multiple administration views to ease job load
- Coupon option
- Max. number of users per course
- Register one or many users in one session
- Enrol one or many users in one session
- Enrolment period with start and end date
- Pricing options - free, paid and coupon
- Invoicing - create your own invoice design for printing of invoices in PDF format
- Name Cards for badge/table use
- Text templates for emails, confirmation, reminders, moving user from waiting list to enrolment, standard Terms for enrolment and standard letters
- Advanced Form templates for Registration and Enrolment
- Multi language interface using a language file

In addition:

Security

SharePoint REM is a password protected solution. All sensitive data is taken from Microsoft Active Directory. No user information is accessible for internal or external search engines.

Learning Management System Integration

SharePoint REM is integrated with SharePoint LMS allowing Single Sign-On.

Tutorials and Help

A comprehensive "How to" manual is available online in Word and PDF formats.

Best Regards

Mette Kuhlmann Frandsen
Marketing and Communications Executive
ELEARNINGFORCE International
